Sub-region Integration Table – Grey Bruce
Meeting Highlights – Tuesday February 6, 2018

The Grey-Bruce Sub-region Integration Table held its monthly meeting on Tuesday, February 6, 2018 at the South West LHIN Owen Sound office.

Meeting Highlights

- The Health System Renewal Advisory Committee (HSRAC) provider representatives from Grey Bruce have been identified as Megan Garland (LTC) and Claude Anderson (MHA) and the patient, family, caregiver partner representative is Steven Vanloffeld. One Sub-region Clinical Lead in the South West also participates in the HSRAC; this representative is Dr. Keith Dyke from Grey Bruce.
- An update on the Mental Health Capacity Report was provided. The capacity planning report can be found on the South West LHIN website http://www.southwestlhin.on.ca/goalsandachievements/Programs/MentalHealthAddictions.aspx
- Feedback on the sub-region priorities from the January sector engagement sessions was provided. Members utilized this feedback to begin refinement and clarification of the three priorities and the role of the Sub-region Integration Table in advancing these priorities.
- Members participated in a facilitated discussion regarding two of the three SRIT priorities:
  - *Spread Indigenous culturally safe care in organizations through such activities as policy, education and the Ontario Indigenous Cultural Safety (ICS) training program*
  - *Improve knowledge and utilizations/embedding of programs and services that support prevention and management of chronic conditions*
- As a result of this discussion, the table members:
  - Committed to promoting indigenous culturally safe care in Grey Bruce
  - Agreed to focus on COPD and CHF under the chronic conditions priority and to bring back an inventory of services currently available locally and regionally for review
- It was acknowledged that further work needs to be done to scope the priorities as part of the work plan development.
- An update of the Health Links transition to the sub-regions by March 2020 was provided.
- An overview of the Grey Bruce Health Equity Tool pilot was provided.
