Sub-region Integration Table - Grey Bruce

Meeting Highlights - Tuesday, May 1, 2018

The Grey Bruce Sub-region Integration Table (SRIT) held its monthly meeting on Tuesday, May 1, 2018 at the South West LHIN Owen Sound Office.

Meeting Highlights

- Patient Partner, Annmarie Fleer has resigned from the committee. We thank Annmarie for her contributions and wish her the best. We will now begin the process of filling this vacancy for the Sub-region Integration Table in Grey Bruce.
- Discussed the participation in the Indigenous Cultural Safety Training in Grey Bruce and the process involved in registration. Communicating the value of the program to all partners in the region is an ongoing commitment by the South West LHIN and SRIT members.
- The Grey Bruce SRIT chronic disease priority, "*Improve knowledge and utilizations/embedding of programs and services that support prevention and management of chronic conditions*" discussion continued from the April meeting. A driver diagram has been drafted from the discussions, and change ideas will be finalized at the next meeting. It is noted that the focus of this activity to date has been on treatment for COPD, not prevention of disease. Further discussions will take place for prevention, and potentially include a second driver diagram.
- The Grey Bruce SRIT Mental Health and Addictions priority "*Identify and support recommendations from the KPMG (consultant) Mental Health and Addictions capacity report that have cross sector implications*" discussion is deferred to the June meeting where a driver diagram and change ideas will be created.

Next Grey Bruce Sub-region Integration Table meeting:
Tuesday, June 5, 2018; 1:00 pm - 4:00 pm
South West LHIN Owen Sound Office, Georgian Rooms
