Item	Discussion	Action
1	**Welcome and Icebreaker** • Tolleen Parkin welcomed the Grey Bruce Sub-Region Integration Table (SRIT) members	
2	**Approval of November Agenda and October Minutes** • Addition to agenda – update on patient partner recruitment for Grey Bruce SRIT • Introduction to I. Reich who will replace Daryl Nancekivell as Home and Community Care Representative **Patient Partner Recruitment** • Recruitment for the third patient caregiver partner near completion, with a focus on the indigenous patient experience • October minutes approved	• Lisa Rigg to connect with Anne Marie Fleer around Health Chat • Lisa George to be forwarded mission vision values survey by Lisa Rigg
5	**Key Inputs** • Tolleen provided an overview of the purpose of today's meeting and noted the documents that will be reviewed • Heather White provided a background understanding on the need to understand the priority populations for Grey Bruce and the documents/data (Sub-region at a glance documents) used by the performance team to identify those needs.	• Heather White to take away the desire for a better comparison of the Grey Bruce Data with other data that more accurately reflects the populations in Grey Bruce

	Sub-region At A Glance South West and Grey Bruce
	• A starting point of looking at the data to get a better understanding of priority sectors and populations
	• Data is refreshed quarterly
	• Key Highlights for Grey Bruce:
	  ○ Grey Bruce has the greatest proportion of seniors in the South West
	  ○ Second highest indigenous population outside of London
	  ○ 2/3 of patients are not getting into their physician same day or next day
	  ○ Grey Bruce is the predominantly rural sub-region so the results will be unique.
	• Feedback on the Data in report:
	  ○ Indigenous data is often under-reported.
	  ○ Patients self-identify in surveys; therefore indigenous statistics may be understated
	  ○ Is there any correlation around people who are getting access and who are not getting access based on the populations we are identifying
	  ○ Are there other ways to identify the information that we might need
	  ○ Need deeper analysis of data to better understand needs and gaps
	• Roadmap presented at Oct 5th meeting has been updated to the format presented today
	• Want to ensure we are addressing priority populations
	• Coordinated Care Plans and Health Link were described
	• 15 of 19 LTC homes need to be redeveloped in Grey Bruce to meet provincial standards
	• An overview of the rapid access addiction clinic in Grey Bruce was provided
	What we Heard Slides
	• Discussion from highlights of reports and data (attached)
		• Tolleen to follow up on opioid and addictions statistics for Grey Bruce
		• Heather White to review and pull addiction information specific to Grey Bruce Sub-region

6	**Break**	
7	**Generative Discussion: Opportunities for Improvement** • Members reflected on information that was presented in the first half of the meeting and discussed what resonated with them and opportunities for improvement • Summary of priority opportunities were recorded in a separate document • Members would like to get statistics on mental health and addiction ages/groups for Grey Bruce	
8	**Prioritization Exercise – "Dot-mocracy"** • Prioritization exercise was not completed	• Prioritization exercise deferred - will complete priorities discussion at the next meeting.
9	**Wrap Up, Meeting Highlights, Next Steps**	

	• Tolleen outlined the plan to complete the prioritization exercise at the next meeting and how the results will be used
